Seed Discount Update

With a busy harvest season upon us, we wanted to send out a reminder of the early order and early payment discounts available on certain types of Viking and Blue River organic seeds.

In addition to the opportunity to receive discounts, placing your order early gives you the best chance to receive the variety, and in some cases the seed size you prefer. In the past many of the organic varieties have been booked up by March.

Albert Lea Seed House is offering a \$10 per bag discount for Viking organic seed corn and alfalfa ordered before October 15th. Additionally, the following early payment discounts are available for orders of Viking corn and soybeans only:

- 9% discount paid for by October 15
- 7% discount paid for by November 15
- 6% discount paid for by December 15

Blue River is offering an early order discount of \$3 per bag on organic corn and alfalfa if ordered in October or November. In addition, the following Blue River early payment discounts are available:

- 8% discount paid for by October 31
- 6% discount paid for by November 30
- 5% discount paid for by December 31

Thank you very much for your continued business.

Rodent Control

10% off all rodent control products and
Traffic Cop.
Valid thru 10/31/2018

Sila-Prime Organic Formulation

October price - \$43.00 per 50 lbs

Application rate is 1.5-3 lbs per ton depending on moisture content of silage.

Sila-Prime is a culture added to organic materials in order to create a fermentation environment conducive to high-nutrient, problem-free feed crops. When activated by moisture, the culture produces lactic acid and lowers pH levels. Silage or hay cures cooler, resulting in a product with high nutrient value that appeals to livestock with highly natural color and aroma.

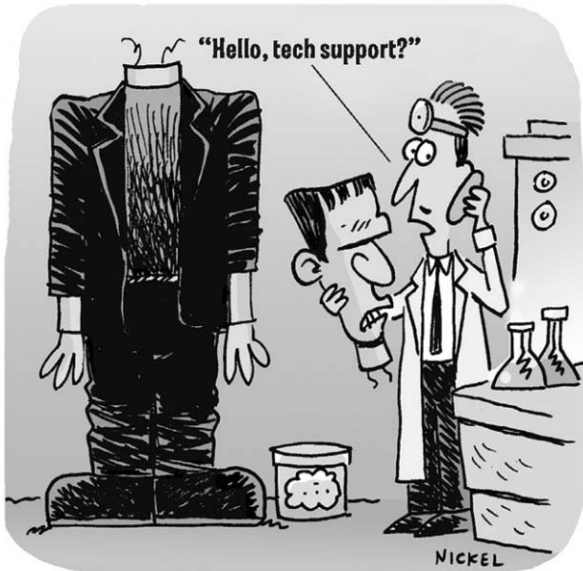

The microorganisms found in Sila-Prime are proven to act effectively with the following crops:

- Baled hay
- Haylage (alfalfa + clover)
- Corn silage
- Forage sorghum
- Grasses
- High moisture ground grain

Organic Grain Receiving Guidelines

- CFS can only receive certified organic grain.
- A copy of your current organic certificate must be on file prior to unloading grain.
- GMO testing will be completed on every load of corn and soybeans.
- Testing for vomitoxin will be completed on every load of barley, rye, and wheat.
- No Off-grade grains will be accepted (i.e. moldy, sour, mixed grains).
- Every load will require a complete "Clean Truck Affidavit." We have copies in our office.
- If you have any questions please call the office in advance.

Call the office for details on Non-GMO Corn and Soybean receiving

Q. What do you call wood when it's scared?

A. *Petrified!*

Q. What plants like Halloween the most?

A. *Bam-BOO!*

Q. What do mummies like listening to on Halloween?

A. *Wrap music!*

Featured Recipe – Pumpkin Bread

3 ½ cups flour

1 ½ tsp. salt

3 cups sugar

2 tsp baking soda

1 tbsp. cinnamon

4 eggs

15 oz. can of pumpkin

1 cup oil

¾ cup water

½ cup chopped walnuts (optional)

½ cup raisins (optional)

Stir flour, baking soda, salt, cinnamon and sugar together. Add oil, eggs, water and pumpkin. Pour into large bread pan. Add walnuts and raisins if desired. Bake at 350 for 35-45 minutes.
